

Mobile Touch® Version 3.0 - Text Made Easier

Reach Your Customers On The Go

MobileTouch® is the easy way to text with your customers and deliver a better experience.

Fact 1: 65% of all consumers now prefer texting to phone calls for customer service experiences.

Fact 2: 64% of consumers think positively of businesses that offer text as a customer support channel.

Mobile Touch® 3.0 allows you to:

- ✔ Conveniently conduct two-way text conversations.
- ✔ Keep customers better informed while their vehicles are in for service.
- ✔ Receive repair authorization in minutes.
- ✔ Let customers know about upcoming sales and events.
- ✔ Efficiently send multiple thank-you's at once to close the loop and ensure your customers' satisfaction.
- ✔ Select and send a text message to several customers at the same time.
- ✔ Maintain a full archive of text conversations with customers.
- ✔ View notifications and alert emails when a customer responds or sends a text.
- ✔ Easily confirm appointments or reschedule missed appointments.
- ✔ Set-up "hands-off" event driven messages or text on-demand.
- ✔ Avoid "Throttle Rate" limitations - All texts sent instantly with no additional fees.

70% of business owners consider text messaging to be the most important mobile technology they can use due to its broad reach and high ROI.

Let us help you deliver a better customer experience and stay ahead of the competition!

All for one low monthly subscription.

Whether you send 100 texts a day or 10,000, it's all the same investment.
